

## Typical Product Specifications & Properties

# (2,3-dichlorophenyl)oxophenylacetic acid

CAS Number: : 93942-57-5

| Specifications   | Limits                                                                              |
