## Typical Product Specifications & Properties

# (5a)-6,7-didehydro-4,5-epoxy-3-methoxy-17-methylmorphinan-6-yl acetate hydrochloride

CAS Number: : 20236-82-2

| Specifications     | Limits                                                                                                                                                                                                       |
