

Typical Product Specifications & Properties

2-amino-3-nitro-5-bromo-4-picoline

CAS Number: : 100367-40-6

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a pyridine ring with an amino group (-NH₂) at position 2, a nitro group (-NO₂) at position 3, and a bromine atom (-Br) at position 5. The pyridine nitrogen is at position 1. The structure is overlaid with a watermark logo for 'parchem fine & specialty chemicals'.</p>
