

## Typical Product Specifications & Properties

# 2-Ethylacrolein

CAS Number: : 922-63-4

| Specifications   | Limits                              |
|------------------|-------------------------------------|
| Molecular weight | 84.12                               |
| EINECS           | 213-079-3                           |
| SMILES           | <chem>CCC(=C)C=O</chem>             |
| InChI            | 1S/C5H8O/c1-3-5(2)4-6/h4H,2-3H2,1H3 |
| InChIKey         | GMLDCZYTIPCVMO-UHFFFAOYSA-N         |
