

## Typical Product Specifications & Properties

# 5-Chloro-2-mercaptobenzimidazole

CAS Number: : 25369-78-2

| Specifications   | Limits                  |
|------------------|-------------------------|
| Molecular weight | 184.65                  |
| EINECS           | 246-903-5               |
| Melting Point    | 290-292 &deg;C          |
| Density          | 1.4750 (rough estimate) |
| Sensitive        | Air Sensitive           |
| Refractive Index | 1.6100 (estimate)       |
