

## Typical Product Specifications & Properties

# 6-Nitroindoline

CAS Number: : 19727-83-4

| Specifications   | Limits       |
|------------------|--------------|
| Molecular weight | 164.16       |
| EINECS           | 243-257-6    |
| BRN Number       | 156434       |
| Melting Point    | 67-69 &deg;C |
