Typical Product Specifications & Properties

Calcein

CAS Number: : 1461-15-0

Specifications	Limits
Molecular weight	622.54
EINECS	215-957-1
Stability	Stable. Incompatible with strong oxidizing agents.
Melting Point	200 °C
Storage Temperature	Store at +5°C to +30°C.
Water solubility	insoluble
Solubility	H2O: soluble
