

Typical Product Specifications & Properties

Calcium Glycinate

CAS Number: : 35947-07-0

Specifications	Limits
Chemical Structure	 <p>The image displays the chemical structure of Calcium Glycinate, which consists of a central calcium ion (Ca⁺⁺) coordinated to two glycinate ions. Each glycinate ion is represented as a methylene group (-CH₂-) bonded to an amino group (-NH₂) and a carboxylate group (-COO⁻). The parchem logo, featuring two interlocking circles, is positioned above the structure. Below the structure, the text 'parchem' is written in a bold, lowercase font, with 'fine & specialty chemicals' in a smaller font underneath.</p>
