

Typical Product Specifications & Properties

Calcium Saccharin Spray Dried Powder

CAS Number: : 6485-34-3

Specifications	Limits
Content	≥ 98.0
Loss on Drying %	≤ 15
Appearance	White Powder
Determination	Complies with USP24/FCCIV
Benzoate & Salicylates	Complies with USP
Ammonium Salts PPM	≤ 25
Melting Point	226-230
Identification	Positive
Molecular weight	467.49
O-Toluene sulfonamide	Complies with USP/FCC
Organic Volatiles	Complies with USP
p-Toluene Sulfonamide	Complies with USP/FCC

Specifications	Limits
Heavy Metals	<-10
Free Acid or Alkali	Complies with USP BP
Readily Carbonizable Substances	Not More Intensely Colored Than Reference
Clarity & Color of Solution	Colorless, Clear
Selenium PPM	<=30
Arsenic PPM	<=3
