## Typical Product Specifications & Properties

# Cefozopran hydrochloride

CAS Number: : 113981-44-5

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of Cefozopran hydrochloride, a cephalosporin antibiotic. It features a six-membered beta-lactam ring fused to a five-membered thiazolidine ring, which is further fused to a six-membered dihydrothiazine ring. A side chain is attached to the dihydrothiazine ring, consisting of a methylene group, a carbonyl group, and a phenyl ring with a hydroxyl group at the para position. The structure is shown as a neutral molecule, with the hydrochloride counterion implied.</p>
