

Typical Product Specifications & Properties

D-Arginine

CAS Number: : 157-06-2

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of D-Arginine. It consists of a central alpha-carbon bonded to a hydrogen atom, an amino group (NH2), a carboxylic acid group (COOH), and a side chain. The side chain is a 3-guanidino propyl group, which is a three-carbon chain ending in a guanidino group (a carbon atom double-bonded to two nitrogen atoms, each with a hydrogen atom). The structure is shown in a 3D perspective with a watermark for 'patchem fine & specialty chemicals' overlaid.</p>
