## Typical Product Specifications & Properties

# Dicyclohexylamine

CAS Number: : 101-83-7

| Specifications   | Limits              |
|------------------|---------------------|
| Density          | 0.915               |
| Slightly Soluble | in water            |
| Water Content    | 0.2% Max            |
| Color, APHA      | 50 Max.             |
| Content          | 0.2% Max. (Aniline) |
| Assay            | 99.0% Min.          |
| Melting Point    | -1 c                |
| Odor             | amine odor          |
| Refractive Index | 1.4842 (20 c)       |
| Molecular weight | 181.32              |
| Flash Point      | 103 c               |
| Solubility       | oxygenated solvents |
