

## Typical Product Specifications & Properties

# Ferrocene

CAS Number: :

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of ferrocene, which consists of two cyclopentadienyl rings (represented as pentagons with a 'C' and 'H' label on each) sandwiching an iron atom (Fe<sup>++</sup>). The structure is overlaid on a faint 'parchem fine &amp; specialty chemicals' logo.</p>
