## Typical Product Specifications & Properties

# Kojic Acid

CAS Number : 501-30-4

| Specifications                    | Limits                      |
|-----------------------------------|-----------------------------|
| Slightly Soluble                  | in water, ether             |
| Clarity                           | Colorless                   |
| Loss on Drying %                  | <0.5%                       |
| Heavy Metals, as Pb               | <0.0003%                    |
| Arsenic PPM                       | <0.0001%                    |
| Molecular weight                  | 142.1                       |
| Appearance                        | Colourless primatic crystal |
| Ceresines, Paraffins, other waxes | LD502500-3500mg/Kg          |
| Chloride; USP <221>               | <0.005%                     |
| Content                           | 98%                         |
| Residue on Ignition               | <0.1%                       |
| Iron                              | <0.001%                     |
