

## Typical Product Specifications & Properties

# L-Prolinol

CAS Number: : 23356-96-9

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of L-proline, a five-membered pyrrolidine ring with a hydroxyl group (-OH) attached to the carbon atom adjacent to the nitrogen. The nitrogen atom is also bonded to a hydrogen atom. The structure is presented in a 3D perspective. Below the structure is the Parchem logo, which consists of two interlocking circles above the word "parchem" in a lowercase sans-serif font, with the tagline "fine &amp; specialty chemicals" underneath.</p>
