## Typical Product Specifications & Properties

# Methyl dibromochloroacetate

CAS Number: : 20428-75-5

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of Methyl dibromochloroacetate, which is a complex polycyclic molecule. It features a benzene ring fused to a five-membered ring containing an oxygen atom, which is further fused to a six-membered ring containing a nitrogen atom. Two bromine atoms and one chlorine atom are attached to the structure. The text 'parchem fine &amp; specialty chemicals' is overlaid on the structure.</p>
