Typical Product Specifications & Properties

Methyl formimidate hydrochloride

CAS Number: : 13507-15-8

Specifications	Limits
Chemical Structure	<p>The chemical structure shows a benzimidazole ring system with a methyl group and a formimidate group attached. The formimidate group is shown as a five-membered ring with a nitrogen atom and two oxygen atoms, one of which is double-bonded to the carbon atom. The methyl group is attached to the nitrogen atom of the benzimidazole ring.</p>
