Typical Product Specifications & Properties

Methyl furo[3,2-c]pyridine-4-carboxylate

CAS Number: : 16264-71-4

| Specifications | Limits |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chemical Structure |  <p>The image shows the chemical structure of Methyl furo[3,2-c]pyridine-4-carboxylate. It consists of a furan ring fused to a pyridine ring, with a methyl ester group (-COOCH3) attached to the 4-position of the pyridine ring. The structure is shown with stereochemistry and atom labels (H, O, N).</p> |
