Typical Product Specifications & Properties

Methyl tetrahydrofolate

CAS Number: : 134-35-0

Specifications	Limits
Molecular weight	459.4558
Chemical Structure	 <p>The chemical structure shows a pteridine ring system (a fused bicyclic ring with two nitrogen atoms) attached to a methylene group, which is further attached to a para-aminobenzoyl group. The para-aminobenzoyl group is linked to a methylene group, which is then attached to a methylene group that is part of a glutamate-like chain ending in a methyl ester group.</p>
Assay/Purity	Typically NLT 98%
