## Typical Product Specifications & Properties

# N-(4,5-dihydro-1,3-oxazol-2-yl)-4-methylbenzenesulfonamide

CAS Number: : 1710293-82-5

| Specifications     | Limits                                                                                                                                                                   |
