

Typical Product Specifications & Properties

N-Ethylethylenediamine

CAS Number: : 110-72-5

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of N-Ethylethylenediamine, which consists of two ethylamino groups connected by an ethylene bridge. The structure is drawn in a skeletal format with blue lines. Below the structure is the Parchem logo, which features two interlocking circles above the word "parchem" in a lowercase, sans-serif font, with the tagline "fine & specialty chemicals" underneath.</p>
