## Typical Product Specifications & Properties

# N6-(2-Isopentenyl)adenosine

CAS Number: : 2365-40-4

| Specifications     | Limits   |
|--------------------|--|
| Chemical Structure |  <p>The image shows the chemical structure of N6-(2-Isopentenyl)adenosine. It consists of an adenine base (a fused bicyclic ring system with two nitrogen atoms) attached to a ribose sugar (a five-membered ring with four hydroxyl groups). The ribose sugar is further attached to an isopentenyl side chain (a five-carbon chain with a double bond between the second and third carbons). The structure is shown in a 3D perspective view with wedged and dashed bonds to indicate stereochemistry. The Parchem logo is overlaid on the structure.</p> |
