

Typical Product Specifications & Properties

Naftopidil

CAS Number: : 57149-07-2

Specifications	Limits
Molecular weight	392.49
Assay/Purity	Typically NLT 98%
Chemical Structure	 <p>The chemical structure of Naftopidil is shown. It consists of a naphthalene ring system connected via an ether linkage to a propyl chain. The propyl chain has a hydroxyl group at the end and is connected to a piperazine ring. The piperazine ring is further connected to a benzene ring, which has a methoxy group at the para position. The structure is overlaid with a 'parchem' logo and the text 'fine specialty chemicals'.</p>
