

## Typical Product Specifications & Properties

# Naratriptan

CAS Number: : 121679-13-8

Specifications	Limits
Molecular weight	335.464
Assay/Purity	Typically NLT 98%
Chemical Structure	 <p>The chemical structure of Naratriptan is shown. It features a central benzene ring with a methanesulfonyl group (-SO<sub>2</sub>NHCH<sub>3</sub>) at the 4-position, a 1H-indole ring at the 1-position, and a 1-methylpiperidine ring at the 2-position. The image also includes a watermark for 'parchem fine &amp; specialty chemicals'.</p>
