## Typical Product Specifications & Properties

# O-(Glucuronic Acid 2-Sulfate)-(1-4)-O-(2,5)-Anhydromannitol 6-Sulfate

CAS Number: : 98632-68-9

| Specifications   | Limits                                                                                                                                                        |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
