

## Typical Product Specifications & Properties

# Ouabain

CAS Number: : 630-60-4

Specifications	Limits
Molecular weight	584.6525
Chemical Structure	 <p>The image shows the chemical structure of Ouabain, a complex steroid molecule with multiple hydroxyl groups and a lactone ring. The structure is overlaid with a watermark for 'parchem fine &amp; specialty chemicals'.</p>
Assay/Purity	Typically NLT 98%
