

Typical Product Specifications & Properties

Perfluorotetradecanoic acid

CAS Number: : 376-06-7

| Specifications | Limits |
|------------------|---------------------------|
| Molecular weight | 714.11 |
| EINECS | 206-803-4 |
| Flash Point | 192°C/60mm |
| Water solubility | It is insoluble in water. |
| BRN Number | 1811438 |
| Melting Point | 130-135 °C |
| Boiling Point | 270 °C/740 mm Hg |
