

Typical Product Specifications & Properties

Potassium Iodide Neutral ACS

CAS Number: : 7681-11-0

Specifications	Limits
Density	3.123
pH	7-9
Melting Point	723 c
Odor	odorless
Molecular weight	166.02
Color	colorless to white crystal granules or powder
Solubility	water, alcohol, acetone, glycerol, oxygenated solvs.
Boiling Point	1420 c
