

## Typical Product Specifications & Properties

# Propyl p-Hydroxybenzoate

CAS Number: :

Specifications	Limits
Chemical Structure	 <p>The image shows the chemical structure of Propyl p-Hydroxybenzoate. It consists of a benzene ring with a hydroxyl group (-OH) at the para position and a propyl ester group (-COOCH<sub>2</sub>CH<sub>2</sub>CH<sub>3</sub>) at the other para position. The structure is overlaid with a watermark for 'parchem fine &amp; specialty chemicals'.</p>
