

## Typical Product Specifications & Properties

# Stearamidopropyl dimethylamine

CAS Number: : 7651-02-7

Specifications	Limits
Molecular weight	368.64
Chemical Structure	 <p>The chemical structure shows a dimethylamino group (N(CH<sub>3</sub>)<sub>2</sub>) attached to a propyl chain, which is linked via an amide bond to a long stearyl (C18) hydrocarbon chain. The Parchem logo, consisting of two interlocking circles and the text 'parchem fine &amp; specialty chemicals', is also present.</p>
