

Typical Product Specifications & Properties

Tonalide

CAS Number: : 21145-77-7

| Specifications | Limits |
|------------------|---|
| Odor | musky, warm, radiant, tenacious odor |
| Melting Point | 52 c min. |
| Molecular weight | 258.4 |
| Solubility | alcohol and dipropylene glycol and water (1.25 mg/l r.t.) |
