Typical Product Specifications & Properties

Tricaprylyl citrate

CAS Number: : 125643-43-8

Specifications	Limits
Chemical Structure	 <p>The chemical structure shows a central citric acid core esterified with three caprylic acid chains. The citric acid part consists of a central carbon atom bonded to a hydroxyl group and three other groups: one is a hydroxyl group, and the other two are part of a five-membered ring containing an oxygen atom and a nitrogen atom. The three caprylic acid chains are attached to the three other carbon atoms of the citric acid core.</p>
