

Typical Product Specifications & Properties

Zinc Chloride

CAS Number: :

Specifications	Limits
Chemical Structure	 <p>The image shows the Parchem logo, which consists of two interlocking circles. Below the logo is the chemical structure of Zinc Chloride, represented as Zn^{++} between two Cl^- ions. Underneath the chemical structure is the word "parchem" in a lowercase, sans-serif font, with the tagline "fine & specialty chemicals" in a smaller font below it.</p>
