

# Typical Product Specifications & Properties

## Zinc Formaldehyde Sulfoxylate

**CAS Number: : 24887-06-7**

Specifications	Limits
Direct Evaporative Cooling	in acid
Very Soluble	in water (normal)
Zinc Bisulphite Formaldehyde as ZN	3.5% Max
Soluble	Very soluble in water, insoluble in alcohol.
Bulk Density	1.0+-0.1
Assay %	94%-96% Min
Shelf Life	Minimum 12 months from date of packing if stored i
Odour	Odourless to slight odour
Insolubility	in alcohol
Odor	odorless to sl. odor
Molecular weight	255.59

Chemical Structure
